The following decision guidelines apply to an application for a permit under Clause 32.09, in addition to those specified in Clause 32.09 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- Whether a loss of amenity would result in varying the requirements of part 3.0 of this schedule.
- Whether a subdivision proposal has sufficient land area and minimum dimensions to be in keeping with the surrounding subdivision and development patterns.
- The layout and appearance of areas set aside for car parking, access and egress, loading and unloading and the location of any proposed off-street car parking.
