VC252

The following decision guidelines apply to an application for a permit under Clause 32.09, in addition to those specified in Clause 32.09 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- Whether the design, height, setback, appearance and interface of the proposed buildings and works is appropriate within the streetscape and to any heritage place on the land or adjacent land.

  Whether the proposed landscaping enhances the existing landscape character and vegetation in the area.

  Whether the significant elements of the area are retained including those elements that contribute to its setting.

  Whether subdivision retains the important elements and features which form part of the significance and character of the area, the visual setting and the important view-lines between these elements.

  Whether the proposed subdivision will complement or adversely affect the cultural significance of any heritage place within the area.

  Whether subdivision will complement or adversely affect the the key characteristics of the area such as streetscape, lot sizes, lot pattern, lot layout or existing building forms in the area or would result in development that would adversely affect the rhythm, scale and pattern of buildings in the area.
