

## 1.0

# SCHEDULE TO CLAUSE 43.01 HERITAGE OVERLAY

## Application requirements

The following application requirements apply to an application under Clause 43.01, in addition to those specified elsewhere in the planning scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- A heritage impact assessment, prepared by a suitably qualified heritage consultant, which assesses the impact of the application upon the significance of the heritage place. The assessment should:
  - Describe the significant elements of the place, having regard to the relevant citation and how these have been considered in the preparation of the application.
  - Include supporting documentation, such as measured drawings and photographs as necessary.
  - Assess, if the application includes demolition, whether the fabric is significant and, if so, provide justification for why it is to be removed.
  - Assess how the application will affect the significance of the heritage place.
  - Identify and assess any fabric of heritage significance which has not been specifically identified by an existing heritage study.
- A heritage management plan prepared in accordance with the Burra Charter.
- A structural report, prepared by a suitably qualified structural engineer with experience in heritage places, that assesses the structural condition of a heritage place and whether any defects can be repaired or mitigated.
- An archaeological survey and assessment, prepared by a suitably qualified professional, which assesses the impact of an application upon potential archaeological deposits on the site.
- A landscaping plan, prepared by a suitably qualified professional, which demonstrates how landscaping will respond to the landscape, character and setting of the heritage place.
- For removal of trees or plantings, a report by a suitably qualified arborist with experience in assessing the cultural significance of historic plantings, which assesses the significance and condition of plantings including alternatives to removal.

## 2.0

## Heritage places

The requirements of this overlay apply to both the heritage place and its associated land.
