SCHEDULE 3 TO CLAUSE 42.01 ENVIRONMENTAL SIGNIFICANCE OVERLAY

Shown on the planning scheme map as **ESO3** .

SIGNIFICANT TREES

1.0 Statement of environmental significance

23/05/2019
C183king

The *City of Kingston Register of Significant Trees* (May 2007) identifies exotic, native and indigenous trees on private and public land that have special significance. The trees have been identified because of their horticultural value, location or context, are rare or have a localised distribution, particularly old, of an outstanding size, provide aesthetic value or are of curious growth form, are outstanding examples of their species or are of cultural or historical significance. Some of these trees are also included on the National Trust of Australia (Victoria) Register of Significant Trees.

2.0 Environmental objective to be achieved

23/05/2019
C183king

To protect and enhance trees that have been identified as being significant.

To minimise the adverse effects of development and works on the condition and health of trees that have been identified as being significant.

To preserve the values of trees as identified in the *City of Kingston Register of Significant Trees* (May 2007).

3.0 Permit requirement

27/11/2008
C93(Part 2)

A permit is not required to construct a building or construct or carry out works outside the specified Tree Protection Radius/Zone of any significant tree specified in the table to this schedule. The Tree Protection Radius/Zone is measured from the centre of the trunk at the point where it meets the natural ground level (British Standard BS5837:2005).

A permit is not required to remove:

- A tree which is dead. This needs to be determined to the satisfaction of the responsible authority.
- A tree being maintained in accordance with a management plan developed by a suitability qualified arborist and approved by the responsible authority.

Any application must be accompanied by a report from a qualified arborist identifying:

- The condition of the tree.
- The reason for the proposed work.
- Whether there are options for alternative treatment.
- What remedial or restorative action is proposed.

- The qualifications of the arborist.
- A timetable of when the proposed works are to be undertaken.

4.0 Application requirements

23/05/2019
C183king

None specified.

5.0 Decision guidelines

07/03/2024
C206king

The following decision guidelines apply to an application for a permit under Clause 42.01, in addition to those specified in Clause 42.01 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The impact of the proposal on the significance of the tree as identified in the *City of Kingston Register of Significant Trees* (May 2007).
- The impact of the proposal on the health, appearance and stability of the tree.
- Any relevant report from a qualified arborist.
- Any report that identifies, describes, or deals with the tree including the *City of Kingston Register of Significant Trees* (May 2007) and the National Trust of Australia (Victoria) Significant Tree Register.
- The reason for removing the tree and whether alternatives to the removal of the tree including the redesign or relocation of buildings and works is possible.
- The benefits of requiring a long-term maintenance program for the tree and especially if it is subject to continuing works over a period within its vicinity.
- The desirability of requiring fencing or any other protective barrier and the management of the Tree Protection Radius/Zone.

Background documents

City of Kingston Register of Significant Trees (May 2007)

Table 1 to Schedule 3

Property Address of Significant Tree	Affected Properties	Location of Significant Tree	Significant Tree/Species	Tree Protection Radius/Zone (metres)	Tree Reference No.	PS Map No.
34 Larnook Crescent, Aspendale	34 Larnook Crescent, Aspendale 36 Larnook Crescent, Aspendale	Front yard	*Eucalyptus globulus* subsp. *maidenii*	10.8	T1	7ESO

Property Address of Significant Tree	Affected Properties	Location of Significant Tree	Significant Tree/Species	Tree Protection Radius/Zone (metres)	Tree Reference No.	PS Map No.
Mordialloc Creek, Aspendale Attenborough Park	Mordialloc Creek, Aspendale Attenborough Park	Opposite Parana Street, on the south side of Mordialloc Creek	*Cupressus macrocarpa* (x3)	21.6	T2	7ESO
Mordialloc Creek, Aspendale Browns Reserve	Mordialloc Creek, Aspendale Browns Reserve	West of the pumping station on the south side of Mordialloc Creek	*Eucalyptus camaldulensis*	10	T3	7ESO
Mordialloc Creek, Aspendale Browns Reserve	Mordialloc Creek, Aspendale Browns Reserve	Between the railway bridge and foot bridge on the south side of Mordialloc Creek	*Cupressus macrocarpa* (x4)	20.4	T4	7ESO
55 Nepean Highway, Aspendale	55 Nepean Highway, Aspendale 55 Nepean Highway, Aspendale, Common Property 56 Nepean Highway, Aspendale, Common Property 57 Nepean Highway, Aspendale	Front yard in the south east corner	*Cupressus macrocarpa*	18	T5	7ESO
Wells Road, between Springvale Road and Gilchrist Way, Aspendale Gardens, Road Reserve	Wells Road, between Springvale Road and Gilchrist Way, Aspendale Gardens, Road Reserve 11 Rochelle Court, Aspendale Gardens 13 Rochelle Court, Aspendale Gardens 320-328 Wells Road, Aspendale Gardens	South of Wells Road in the road reserve to the rear of 13 Rochelle Court	*Eucalyptus camaldensis*	17	T6	8ESO
Wells Road, between Springvale Road and Gilchrist Way, Aspendale Gardens, Road Reserve	Wells Road, between Springvale Road and Gilchrist Way, Aspendale Gardens, Road Reserve	South of Wells Road in the road reserve to the rear of 5 Rochelle Court	*Eucalyptus camaldulensis*	13	T7	8ESO
