

SCHEDULE 1 TO CLAUSE 42.02 VEGETATION PROTECTION OVERLAY

Shown on the planning scheme map as **VPO1** .

TREE PROTECTION AREA**1.0**
14/04/2022
C152mona**Statement of nature and significance of vegetation to be protected**

The significance of vegetation in Monash is in its contribution to the urban character of the municipality, particularly in residential areas. The Municipal Planning Strategy and tree conservation policy recognise the importance of canopy trees as a significant aspect of urban character. Canopy trees unify the streetscape in residential areas, avoid the impression of visual clutter, and provide a strong naturalistic image and a sense of enclosure within a street.

Existing on-site canopy trees contribute to the Garden City Character of Monash. Retention of canopy trees helps integrate new development into the existing urban form and reduces the impact of higher densities or larger buildings on neighbourhood character.

The tree canopy presents a “special” leafy character valued by the community in terms of consistent and visible vegetation and the opportunity for residents to live in a treed, predominantly low density, detached house environment. Retention of existing canopy trees is necessary to complement any new development.

The highest concentration of trees is to be found in the creek valley reserves and within private and public land adjacent to creeks and over old drainage lines and other easements.

The western slopes of the Dandenong valley are known for having a dense canopy of native trees. While most of these are due to planting that has occurred since development, there are some large remnant trees throughout the area.

Monash City Council is committed to conserving, continuing and extending the Garden City Character and all its elements throughout Monash. To ensure that development is in keeping with and contributes to the Garden City Character as set out in the Municipal Planning Strategy, Council is following a policy of retaining the existing tree canopy on private and public property.

2.0
14/04/2022
C152mona**Vegetation protection objectives to be achieved**

To conserve significant treed environments and ensure that new development complements the Garden City Character of the neighbourhood.

3.0
14/04/2022
C152mona**Permit requirement**

A permit is required to remove or destroy any vegetation that:

- Has a trunk circumference greater than 500 millimetres (160 millimetres diameter) at 1200 millimetres above ground level and
- Is higher than 10 metres.

or

- Is higher than 7 metres located on 24 Samada Street, Nottingham.
(former Monash Primary School site)

This does not apply to dead vegetation or to the following species:

- all willow trees
- radiata or monterey pines
- evergreen alders
- sweet pittosporums

- desert ashes.

Exemption from notice and review

An application is exempt from the notice requirements of Section 52(1)(a), (b) and (d), the decision requirements of Section 64(1), (2) and (3) and the review rights of Section 82(1) of the Act.

Application requirements

The following application requirements apply to an application for a permit to remove or destroy vegetation under Clause 42.02, in addition to those specified elsewhere in the scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- A plan showing the location of the vegetation to be removed or destroyed.
- The type and quality of the vegetation to be removed or destroyed.
- The justification for the proposed removal or destruction.
- A statement of alternatives examined to removal or destruction.

An application to remove or destroy vegetation in conjunction with development of the land must be accompanied by a site analysis plan and a written statement demonstrating how the removal or destruction of the vegetation is essential for the proposed development to proceed, including an assessment of alternative design solutions retaining the vegetation.

Decision guidelines

The following decision guidelines apply to an application for a permit to remove or destroy vegetation under Clause 42.02, in addition to those specified in Clause 42.02 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The reason for removing or destroying the vegetation and the practicality of alternative options which do not require removal or destruction of vegetation.
- The practicality and benefits of relocating significant vegetation.
- The condition and quality of the vegetation.
