Application requirements

The following application requirements apply to an application under Clause 43.01, in addition to those specified elsewhere in the planning scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- For applications to alter, extend or demolish a heritage place, building or structure a report prepared by a suitably qualified heritage consultant, that assesses the impact of the application upon the significance of the heritage place, building or structure. This report should demonstrate how the application has considered and responded to the objectives of this clause and the heritage strategies and policy guidelines in Clause 15.03.
- For applications that propose full or substantial demolition of a heritage place, building or structure:
  - Plans and elevations showing the extent of all buildings and features to be demolished or removed.
  - A structural engineering report prepared by a suitably qualified person that assesses the condition of the heritage place, building or structure and whether any defects can be rectified.
  - A demolition method statement that describes how any retained contributory features will be protected and conserved during demolition and construction.
- For applications to paint a heritage place, building or structure, a schedule, plans and elevations showing the colours and finishes to be used on all surfaces, when external paint controls are triggered.
- For applications that include changes to contributory features, at least one image of the existing feature.
- For applications that include restoration or reconstruction of original fabric, plans prepared at a scale that clearly shows the proposed details.
- For an addition to a heritage place, building or structure or new development:
  - Fully scaled and dimensioned site plan showing existing and proposed circumstances including outbuildings, fences, significant vegetation, car parking, new crossovers, onsite parking space locations and any other noteworthy features.
  - A site context report that identifies contributory features of surrounding buildings including building form, scale, siting, massing, materiality and detailing, and fence types and heights.
  - Photographs of the existing streetscape.
  - For additions, sightline diagrams in accordance with the relevant policy guidelines for additions in Clause 15.03-1L.
  - When located within a precinct, elevations that show the addition or new development in the context of the streetscape if they are visible from the public realm.
  - Three dimensional illustrative renders or photographic montages showing views of the addition or development in the context of the streetscape including from oblique (side on) views. For corner sites, this should include views of the addition from side streets or laneways.

- For applications to remove a tree with identified heritage value a report prepared by a suitably qualified person in relation to the health, condition and expected lifespan of the tree and why removal is necessary.
- For applications to prune or lop a tree or for development in proximity to a tree with identified heritage value a report prepared by a suitably qualified person that assesses potential impacts upon the health and viability of the tree, when external tree controls are triggered.
